ABOUT US

Our Mission Is To Be Inventive

KTS Technical (Pty) Ltd is a South African registered company that offers mechanical engineering using computerized manufacturing machines known as CNC for all sectors like Automobile, Aviation, Medical, Metals & Mining, Oil & Gas, Pharmaceutical Industry, Rail and Renewable Energy. Also, we provide training to postgraduate students in their quest to achieve practical and professional experience.

Although we are a global engineering company, we mainly service the South African and Africa markets. We have been providing safe and professional services since 2015. We are a 100% black-owned company (founded by Farai Kushata) and our head office is located in Jet Park, City of Ekurhuleni, Gauteng, South Africa.

We offer all types of mechanical engineering options. Local and foreign services are available. Fast turnaround and emergency mechanical engineering, maintenance and repair services are available.

We have been providing reliable and cost-effective mechanical engineering services to hundreds of companies across South Africa and on a global platform. We offer a long-term partnership, with a clear customer-focused approach. That is how we inspire the trust of our partners and clients.

Lastly, we have integrated innovation and prevailing techniques to develop the well-favoured hydraulics technology that is widely utilized in various industrial development sectors, including heavy engineering. We believe the cornerstone of our rapidly growing revenue is our business perspective which embodies our client-centric attitude. We optimise our resources and knowledge to bring forth the most innovative designs that generate high power levels with the most advanced hydraulic technique. Further, owing to our efficient business models and matchless range of machinery we are expanding our reach in the industry by the delivery quality that adds further value to our client's business.

OUR MISSION IS TO BE INVENTIVE

Powering tomorrow, today

OUR VISION

To be the leading provider of non-conventional and disruptive mechanical engineering to the global industries through technological transformations.

OUR MISSION

To deliver world-class mechanical engineering services. We provide dependable customer service using a team that produces integrity and excellence. We are building a strong growth-oriented organization by utilizing our strength and opportunities and create stakeholders' welfare. We are creating chains of trust by providing reliable and innovative solutions.

VALUES

Integrity: We make the right decision, we follow the just path, and we lead as you would like to be led.

Accountability: In terms of our ethics and governance, we equate ourselves with answerability, blameworthiness, and liability.

Knowledge: Our core business is creating technical transformation by practising, consulting, teaching and learning.

Commitment: We pledge to give our time and energy to something you believe in.

SERVICE

Powering tomorrow, today

MANUFACTURING

We have the capacity to manufacture Hydraulic Cylinders having manufactured Regulating Cylinders for Mayibuye iAfrika and Afrinov. We are proudly positioned to tackle Hydraulic Cylinder problems both in repairs and new ones.

MAINTENANCE

KTS technical (Pty) Ltd is an agency for Tiefanbach Germany that manufacture a wide range of automation instruments for among other things Continuous Mining and Linear Sensors.

REFURBISHMENT & RESTORATION

KTS is a leading expert in the refurbishment and restoration of industrial equipment, specialising in pumps such as Warman Slurry, Weir pumps, and APE pumps. Their meticulous approach ensures optimal performance and extended lifespan. Additionally, KTS excels in restoring hydraulic cylinders with a focus on environmentally designed solutions tailored for regions worldwide, including Africa, Europe, Asia, and America. Clients benefit from KTS's commitment to precision, reliability, and cost-effective solutions across a diverse range of industrial components.

TRAINING

We offer practical-based training services to Artisans in the field of CNC Programming, Setups and Operations. We also train Safe Working Practices.

SOME OF OUR PREVIOUS CLIENTS

Powering tomorrow, today

PROUDLY SERVING

- Tenova
- Ndalama Armature Winding
- N&C Maintenance
- Waive Engineering
- Liongate Engineering
- Mjansthi Engineering and Consultancy
- Mayibuye-i-africa (Pty) Ltd
- Tunnel Engineering

SOME COMPLETED PROJECTS

KTS Technical is a mechanical engineering company with the expertise to manage the complexity of an engineering process from start to finish, which has a positive impact not only on clients but on society and contributes to its development.
